

Enhances Metabolism Hydrogen Water Machine 500mL/min Improve Blood Circulation

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: WEIZI
- Certification: CE、FDA
- Model Number: WZ-YZ-W70
- Minimum Order Quantity: 1
- Price: 350USD/pieces (negotiable)
- Packaging Details: Single package size:52*32*58cm, Single gross weight:15 kg
- Delivery Time: 15 work days
- Payment Terms: T/T
- Supply Ability: 200 pieces permonths

Product Specification

- Product Name: Hydrogen Generator Hydrogen Water Dispenser
- Hydrogen Concentration: 2001-5000 Ppb
- Hydrogen Purity: 99.99%
- Water Output: 200/350/500mL/min
- Water Temperature Ice: Water,room Temperature Water,warm Water And Hot Water
- Single Package Size: 340X540X570 Mm
- Highlight: **Enhances Metabolism Hydrogen Water Machine , 500mL/min Hydrogen Water Machine, Enhances Metabolism Hydrogen Water Maker**

Product Description

Hydrogen Water Dispenser

Product Description

The size of this machine is 198*412*368 mm and the weight is 15kg. It is compact and easy to carry. Meanwhile, it adopts the newly upgraded silent technology, sound damping and vibration reduction system to give you a quiet using environment. LED display touch screen, multiple modes, one button operation, enjoy the portability. The machine instantly feeds water and produces hydrogen instantly, only feeds water when running, no water residue in the machine. The machine has four temperature adjustments, no need to wait, instant heating, temperature control is more intelligent and more stable; four water adjustments to meet different drinking water needs.

In conclusion, if you are looking for a safe and effective way to experience the many benefits of drinking hydrogen-rich water, I believe that this hydrogen water dispenser can meet all your requirements.

Features

Product Name: Nano Hydrogen Water Dispenser for Rich Hydration Anywhere WEIZI

Electrolytic cell material: Proton membrane N117 + high-purity platinum coating

Water output: 200/350/500mL/min

Compatibility: Adaptable plugs tailored to various countries

Water Discharge Method: Ready for use

Water temperature: ice water, room temperature water, warm water and hot water

Body material: ABS+Extrusion Molding

Technical Parameters:

Product name	Hydrogen Water Dispenser
Hydrogen purity	99.99%
Water output	200/350/500mL/min
Hydrogen value	2000~5000 ppb

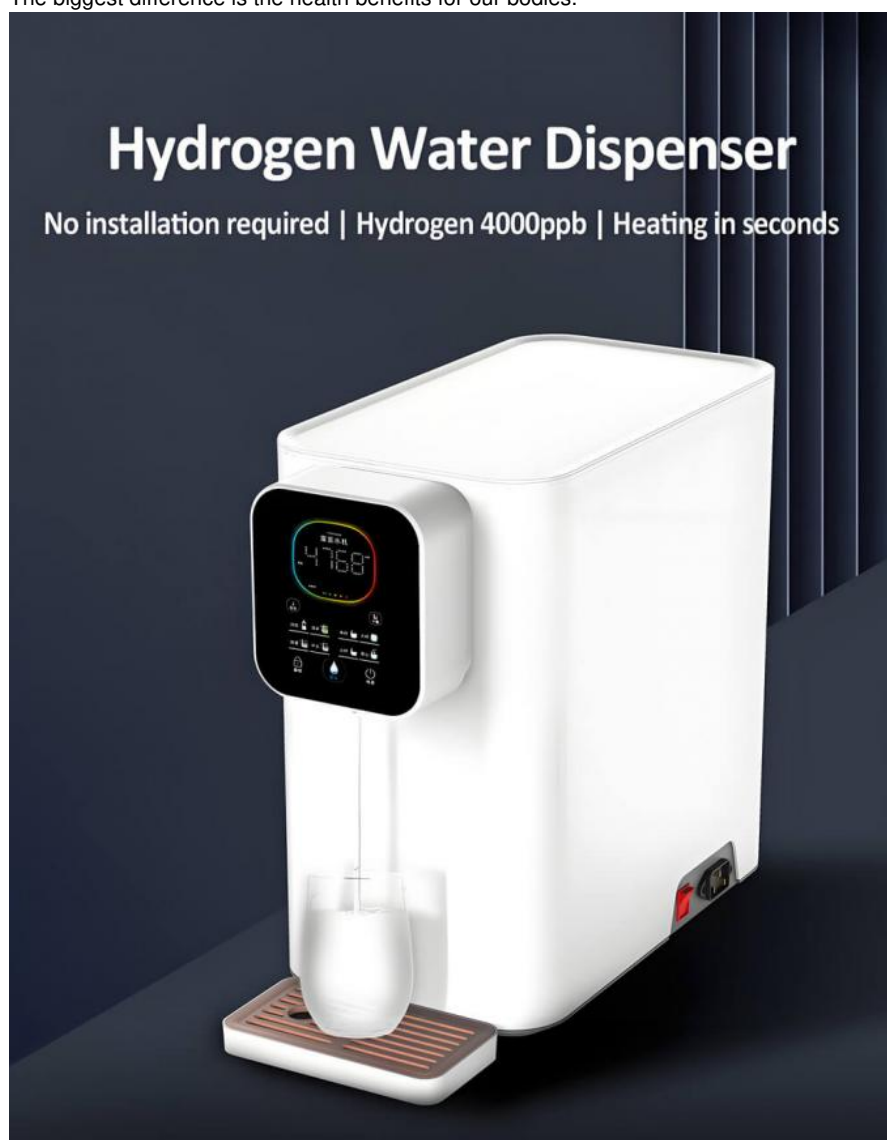

What is Hydrogen Water

Molecular hydrogen water sounds very special but in fact, is very easy to understand.

Just as carbonated drinks contain CO₂ gas, which gives it that fizz.

Hydrogen water contains H₂ or hydrogen gas.

The biggest difference is the health benefits for our bodies.

Ten Advantages

No installation
required

Hydrogen value
up to 4000ppb

Seven-speed
thermostat

Water Inlet
Automatic

Heating
in seconds

Four gear
water volume

Child lock
design

Touch screen
color display

Timing system
simple to use

99.992%
hydrogen purity

Health Benefits of H2 Water!

Powerful Antioxidant: Hydrogen molecules act as potent antioxidants that neutralize harmful free radicals, reducing oxidative stress and inflammation.

Improved Energy Levels: Helps boost your energy by supporting mitochondrial function, leading to better overall vitality.

Better Recovery: Aids in quicker recovery from exercise and physical exertion by reducing muscle fatigue and soreness.

free installation design Put it where you want

Not affected by Water source and placement restrictions apply to offices, kitchens, living rooms, bedrooms and other places.

living room

Can make a pot of good tea immediately

kitchen

Good water housing makes soup more fragrant

bedroom

Drinking water in the middle of the night
is more convenient

company

The cost of drinking water is lower,
and it is more classy

Transform Your Water?

Hydrogen water is regular water that has been infused with extra active hydrogen molecules, which acts as powerful antioxidants. These antioxidants help neutralize harmful free radicals in your body, potentially improving your health.

High strength extruded materials Temperature and pressure resistance, durable and long-lasting

Durable and resistant to high temperature
and pressure, with high hydrogen purity
and long service life

High temperature resistance

Anti corrosion

resistance to compression

Anti vibration

Friction resistance

USING PEM HYDROGEN PRODUCTION TECHNOLOGY

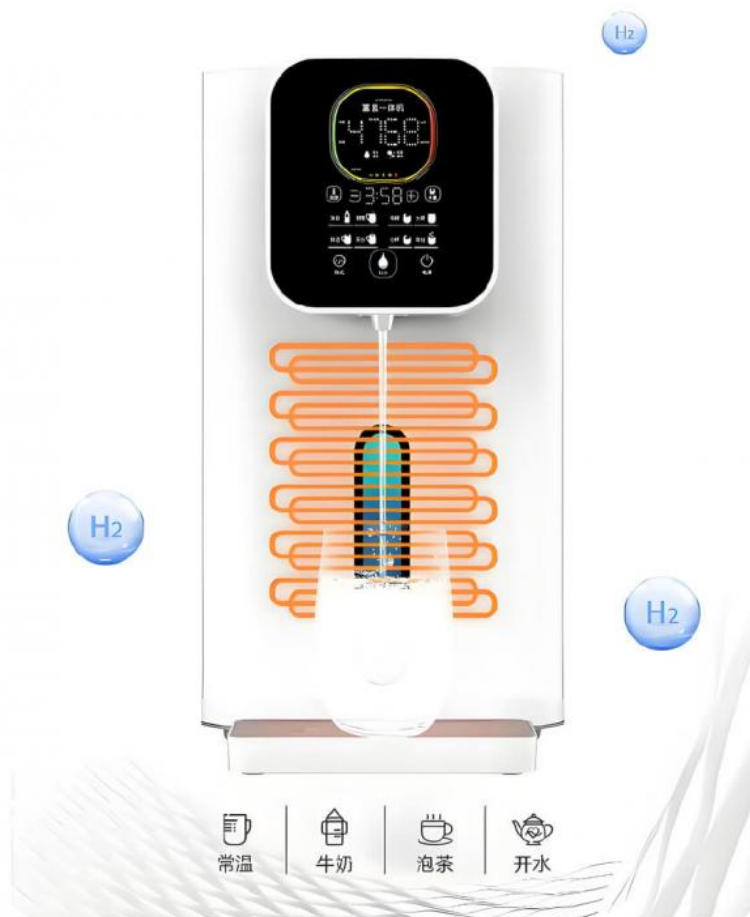

The water that meets the requirements (pure water or distilled water) is input into a hydrogen molecular generator through a dedicated device.

Under the action of an electric current, the water will decompose into H₂ and O₂, and H₂ and O₂ will be separated.

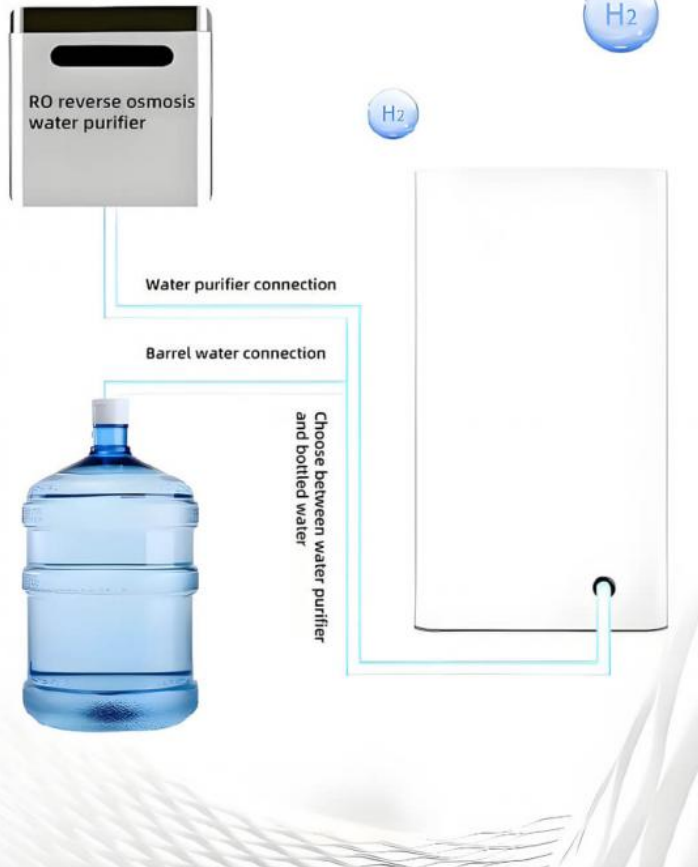

Instant hydrogen rich water machine

Four temperature levels, no need to wait
Instant heating and temperature control,
more intelligent and stable

Two ways of adding water More flexible and convenient

Can be connected to bottled water,
can be connected to a water purifier

High strength extruded materials
Temperature and pressure resistance,
durable and long-lasting

Durable and resistant to high temperature
and pressure, with high hydrogen purity
and long service life

Support and Services:

The Hydrogen Water Dispenser is a water treatment healthcare device designed to generate hydrogen-rich water by dissolving hydrogen gas in water. The machine comes with a hydrogen generator, a hydrogen mixing module, and a control panel that allows the user to adjust the amount and temperature of the hydrogen-rich water dispensed. Technical support and services for hydrogen water machines include troubleshooting assistance, repair and maintenance services, and replacement parts. These services are provided by authorised dealers or trained technicians. The user is advised to contact the manufacturer or authorised distributor for any technical problems and to follow the instructions provided in the user manual.
