

Best Portable 1L Sport Hydrogen Rich Alkaline Water Bottle Generator SPE PEM New Technology Hydrogen Water Cup

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: WEIZI
- Certification: CE、FDA、RoHS
- Model Number: YZ-K1L
- Minimum Order Quantity: 1
- Price: 44USD/pieces
- Packaging Details: Single package size:8X11X34 cm
- Delivery Time: 7 work days
- Payment Terms: T/T
- Supply Ability: 200 pieces permonths

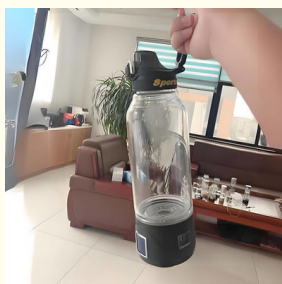

Product Specification

- Product Name: Hydrogen Rich Sports Water Bottle 1000ml
- Hydrogen Concentration: 1600ppb
- Product Name Hydrogen Rich Sports Water Bottle 1000ml Hydrogen Concentration 1600ppb Negative Pote: -600mv
- Water Temperature: $\leq 60^{\circ}\text{C}$
- Capacity: 1000ml
- Power: $\leq 5.55\text{W}$
- Material: Bottle Material Tritan, High Borosilicate, ABS
- Battery: 3.7V 2000mAh Lithium Battery
- Charge Time: Charges In About 3 Hours, Can Be Electrolyzed 15 Times After Full Charge
- Electrolyzed Time: 10 Minutes / Time
- Switch Mode: Touch (click On, Click Again To Close)

Product Description

Why this Large Capacity 1000ml Hydrogen Rich Water Bottle?

With a large 1000ml capacity, the hydrogen rich sports water bottle can produce a substantial amount of hydrogen-rich water in a single filling.

This means you'll have enough water to meet your daily hydration needs or share with your loved ones.

Stay hydrated throughout the day without worrying about constantly refilling your bottle.

Hydrogen-rich water bottle

Nano-dissolved hydrogen

One-bond electrolysis

Strong anti-oxygen and easy absorption

Food grade material

Hydrogen-rich water bottle

Made of food-grade PP material, it is environment-friendly and
Corrosion-resistant, and healthy and more assured

Product name:	Hydrogen Rich Sports Water Bottle 1000ml
Hydrogen concentration:	1600ppb
Negative potential:	-600mv
Water temperature:	≤60°C
Capacity:	1000ml
Power:	≤5.55W
Material:	bottle material Tritan, high borosilicate, ABS
Battery:	3.7V 2000mAh lithium battery
Charge time	charges in about 3 hours, can be electrolyzed 15 times after full charge
Electrolyzed time	10 minutes / time
Switch mode:	touch (click on, click again to close)

Hydrogen-rich water bottle

1000ml

Food grade

One-bond electrolysis

Split design

High borosilicate glass

A tractor serves
Several purposes

True cavity electrolysis technology Special ion membrane for hydrogen-oxygen separation

Free radical scavenging and nano-hydrogen dissolving technology

Hydrogen rich water antioxidant experiment

Hydrogen-rich water provides negative ions, free radicals prefer negative ions, and preferentially combine with negative ions to generate harmless substances, which are excluded from the body.

Severely oxidized
when placed in air

Oxidation is obvious w
hen placed in normal water

The oxidation is not obvious
when placed in hydrogen water

Why need hydrogenated water?

When we breathe or when in contact with air, oxygen performs a secondary and harmful function, which is oxidation. These aging oxygen molecules are called "free radicals", which is the cause of most diseases and premature aging.

Hydrogen is an important antioxidant that helps eliminate free radicals to reduce oxidative stress. And to counteract the free radicals we turn the tap water into hydrogenated water.

Hydrogenated water is absolutely recommended for people of all ages, and no matter how much you drink, you can never reach overdose levels, because the excess hydrogen evaporates.

Benefits of Hydrogenated Water

Early studies are promising (but inconclusive) that Hydrogen Water may support:

- * **Antioxidant Benefits:** Providing potent antioxidant benefits, neutralizing harmful free radicals and reducing oxidative stress.
- * **Enhanced Hydration:** Superior hydration at the cellular level, promoting optimal organ and system function.
- * **Athletic Performance:** Reducing muscle fatigue and speeding recovery, making it a boon for fitness enthusiasts.
- * **Anti-Inflammatory:** Relief from inflammation-related conditions, supporting overall well-being.

Suitable for a variety of people

Pregnant women/elderly/children/hypertensive diabetes can drink

Middle-aged & elderly people

Pregnant mother

Work overtime & stay up late

Infant
