

PEM Electrolyzer Hydrogen Bath Machine , Molecular Hydrogen Water Bath Generator

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: WEIZI
- Certification: CE、FDA、RoHS
- Model Number: WZ-qy3500
- Minimum Order Quantity: 1
- Price: 1000USD, The price can be negotiated
- Packaging Details: Package size 25 x 35 x 50 cm
- Delivery Time: 7 work days
- Payment Terms: T/T
- Supply Ability: 100 pieces permonths

Product Specification

- Color: Blue
- Product Size: 23 X 32 X 46cm
- Package Size: 25 X 35 X 50 Cm
- Product Weight: 15kg
- Product Gross Weight: 19kg
- Rated Power: 100W
- Rated Voltage: Ac110-220v/50-60hz
- Hydrogen Solubility: >2500ppb
- Water Output: 3500ml/min
- Working Water Temperature: 1~60
- Highlight: **PEM Electrolyzer Hydrogen Bath Machine, Molecular Hydrogen Water Bath Generator**

Product Description

H2 bubble hydrogen water bath generator

This hydrogen water bath generator machine works by introducing ultra - pure molecular hydrogen into the water, allowing you to enjoy a relaxing molecular hydrogen bath in the comfort of your own home. It has the capability to produce water containing 99.996% high - purity hydrogen gas and deliver nano - sized hydrogen bubbles directly to your skin. The hydrogen concentration in the water can reach levels above 2500ppb.

When you soak in water with this high a hydrogen concentration, the hydrogen, which has the ability to neutralize free radicals, seeps into your skin cells. Additionally, studies have shown that it may be beneficial in the treatment of various medical ailments.

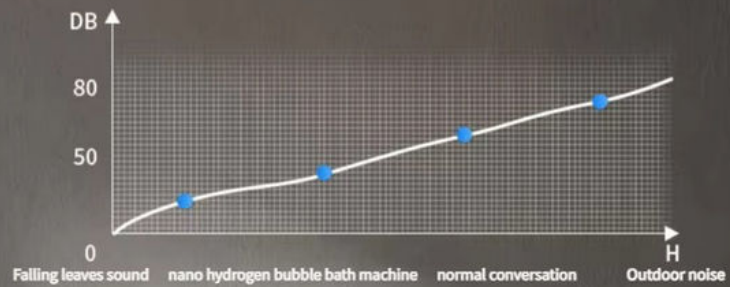

This hydrogen water bath generator produces hydrogen - enriched water at a rate of 6000 ml per minute. It serves as a multi - functional device, not only offering a hydrogen - infused spa experience for both showering and bathing but also functioning as an advanced hydrogen - based detox foot spa and a hydrogen - enriched face - washing apparatus.

LOW FREQUENCY NOISE REDUCTION DESIGN

Low frequency noise reduction design

Comfortable Experience | Enjoy a Quiet Life

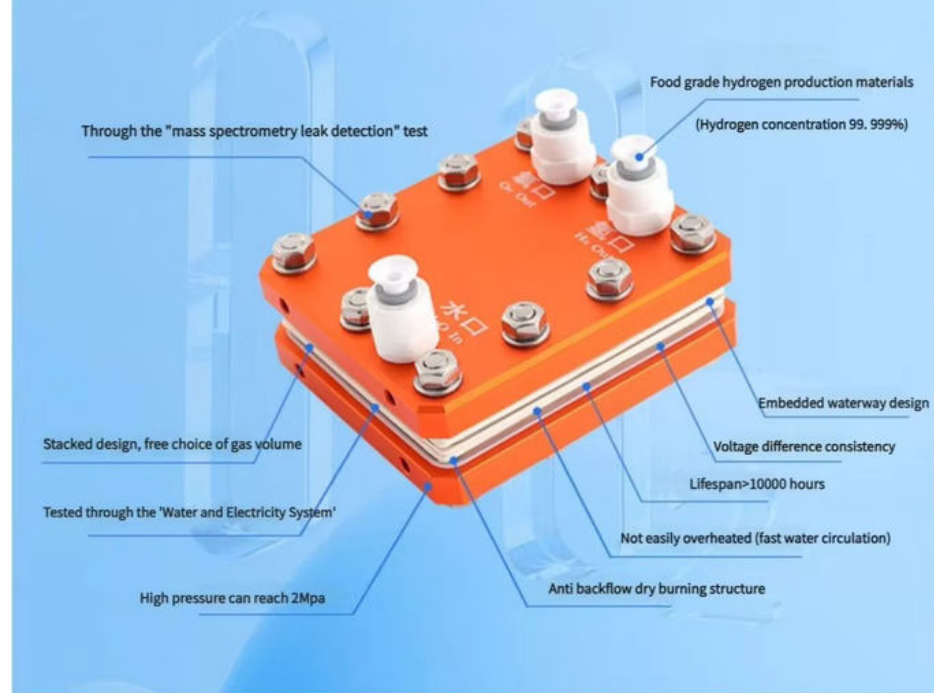

This H₂ generator water bath spa machine is equipped with two ports: an inlet and an outlet. Once we attach both the inlet and outlet pipes to the bathtub, the hydrogen - enriched water can achieve a hydrogen concentration of up to 5300ppb. Moreover, thanks to its high - volume water - output rate, this machine can fill the entire bathtub with H₂ - infused water in just around 20 minutes.

SIX MAJOR PRODUCT FEATURES

Specialized PEM electrolytic cell

Hydrogen oxygen separation | Multiple electrolysis sheets | High hydrogen production efficiency

This hydrogen water bath generator employs a top - notch proton membrane electrolytic cell to generate water enriched with H_2 . By using this advanced cell, it skillfully avoids the production of hazardous gases such as chlorine and ozone. Furthermore, the electrolytic cell is renowned for its outstanding durability and reliable performance, factors that substantially extend the machine's working life.

Applicable scenario display

Hydrogen Experience Hall

Medical institution

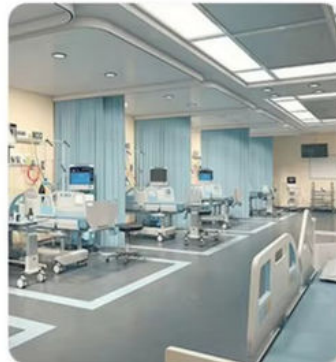

Beadhouse

Rehabilitation center

Family personal use, etc

Family use

Medical Institution

Beadhouse

Rehabilitation center

This hydrogen - rich water generator comes with a smart LCD touch - screen display. It shows a range of important information, including low - water alerts, over - voltage warnings, overheating indicators, imbalance notifications, as well as real - time data on TDS (Total Dissolved Solids) water quality and H₂ flow rate. Operating this machine is a breeze, making it highly suitable for home use, as well as for beauty spas, health and wellness centers, and hotels.

Regarding this hydrogen water bath machine, we offer OEM (Original Equipment Manufacturer) services. If you're interested, feel free to send us a message.

Water connection method

It can be directly connected to a water heater or recycled for hydrogen production

Can be pumped for use

Can be connected to a water heater

Who Is Brown's Gas Therapy For?

Around 10% of the human body's mass and 63% of its overall volume are made up of hydrogen. Hydrogen plays a crucial role in maintaining our good health, which is exactly why this specific therapy is believed to offer a multitude of potential benefits.

It's worth emphasizing that we do acquire hydrogen via our daily diet. The organic compounds present in the food we eat are packed with hydrogen. As we break down and absorb the nutrients from the meals we consume, we're essentially also taking in hydrogen in the process.

Hydrogen plays a crucial role in many vital bodily functions. For instance, it's involved in oxidation processes that help maintain appropriate energy levels. By administering extra hydrogen to the body through Brown's Gas therapy, we can tap into a host of benefits. Numerous studies have indicated that this treatment can be beneficial for a wide range of chronic diseases and health issues, suggesting that it could potentially be helpful for nearly everyone.
