

WEIZI 3000ml Hydrogen Inhaler Machine 800W Medical Grade for Home Use

Our Product Introduction

for more products please visit us on weizi-medical.com

Basic Information

- Place of Origin: Guangdong, China
- Model Number: YZ-C3000F3
- Minimum Order Quantity: 1
- Price: \$1,999-2,250

Product Specification

- Dimensions: 48x30x78cm
- Housing Material: Stainless Steel
- Power: 800W
- Voltage: AC100-240V
- Hydrogen Concentration: 2001-5000 Ppb
- Electrode Membrane Material: Proton N117 Membrane
- Coating Material: Platinum And Iridium
- Max H2 Output: 2000±10 MI/min
- Max O2 Output: 1000±10 MI/min
- Total Flow Rate: 3000, 2250, 1500 MI/min
- Time Setting: 1-8 Hours
- Working Life: 8000-10000 Hours
- Operating Language: English
- Housing Alloy: 6063 Aviation Aluminum

Product Description

Weizi Medical 3000ml/min Hydrogen Inhaler

Key Features

- Medical grade:** Double electrolyzers and double medical grade drivers
- Time setting:** Adjustable from 1-8 hours for continuous hydrogen inhalation
- Three outlets:** H₂, O₂, H₂ configuration for single or dual user operation
- Advanced membrane:** Proton N117 membrane with platinum and iridium coating
- Durable housing:** 6063 aviation aluminum alloy anodized construction
- Extended lifespan:** 8,000-10,000 hours of operation
- Hydrogen water production:** Includes nano rods for creating hydrogen-rich water
- Multilingual interface:** English touch screen and voice broadcasting
- Global compatibility:** Customizable plugs for different countries

Three air outlets

Meet different needs for
hydrogen and oxygen

Operation Modes

Three selectable flow configurations:

- 3000ml/min (2000 H_2 + 1000 O_2) - Single suction (Mixture)
- 3000ml/min (2000 H_2 + 1000 O_2) - Double suction (Separated)
- 3000ml/min (2000 H_2 + 1000 O_2) - Three suction (Separated)

Hydrogen is naturally produced in the human body, with healthy gut bacteria generating up to 10L daily. Our cellular systems are biologically adapted to utilize hydrogen effectively.

Getting Started

The hydrogen inhaler operates quietly with simple setup:

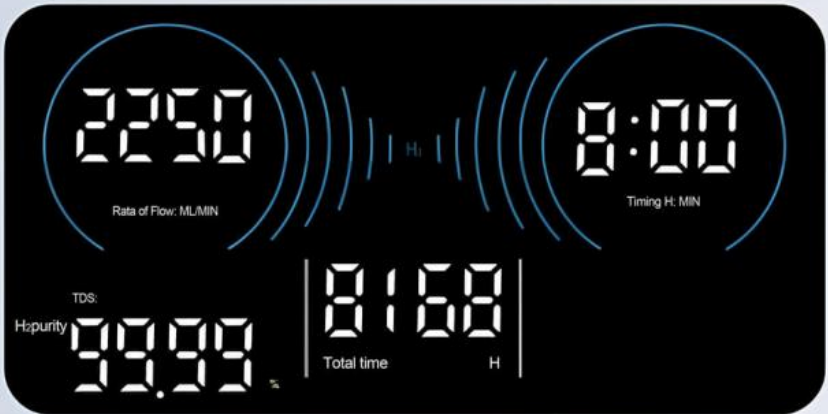

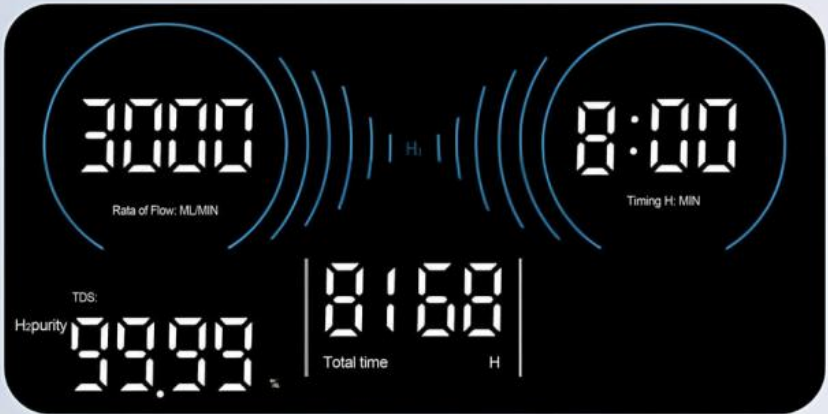

- Add distilled water and connect power
- Attach cannula to hydrogen outlet
- Begin with 30 minute daily sessions
- After several days, increase to two 30-minute sessions (morning/evening)
- After 1-2 weeks, progress to two 60-minute sessions daily

This progressive approach allows your body to adapt optimally.

Hydrogen flow adjustable

One machine with
3000ml, 2250ml, 1500ml

Intelligent large screen

Clearly, easy operations

Safe and comfortable

Touch display

Transparent window

Technical Specifications

Technology	SPE and PEM (latest generation)
Flow Rate Options	3000, 2250, 1500 ml/min
Max H2 Output	2000±10 ml/min
Max O2 Output	1000±10 ml/min

Outlets	H2, O2, H3
Timer	1-8 hours adjustable
Lifespan	8,000-10,000 hours
Interface	Touch screen with multilingual voice
Housing	6063 Aluminum alloy with heat dissipation
Power	750W, AC100-240V, 50-60Hz

Note: Always use high-quality distilled water with Total Dissolved Solids (TDS) below 5ppm.

Package Contents

Included Items	Package Details
1 x Machine 2 x Nasal inhaler 2 x Transfer takeover 1 x Y type connector 1 x Connection tube 1 x Power cord 1 x User Manual	Dimensions: 205*480*680mm Unit Package: 300*575*855mm N.W/G.W: 26.8kgs /35kgs 173 units per 20"FT container 454 units per 40"HQ container

BENEFITS OF HYDROGEN INHALATION

...

hydrogen promote the body cell metabolism human and accelerate to eliminate harmful free radicals. anti-oxidant anti-aging, improve immunity, relieve fatigue and pain. great therapeutic effect on nervous system diseases and cerebrovascular diseases. suggest to use for 1-2 hours per day.

Increase vitality

Relieve fatigue

Improve sleep

Rejuvenate beauty

Widely applications

Safe and reliable

One-touch to meet different needs

Living home

Daily health

Hospital treatment

Adjuvant therapy

Beauty Salon

therapy and health

Gym & sports

Sports supplement

About Weizi Medical

Shenzhen Weizi Medical Co., Ltd is a high-tech enterprise specializing in hydrogen-ion health products including inhalation machines, water machines, and tanks. Our products hold CE, FCC, VOC, UKCA, CNAS and RoHS certifications.

Since 2012, we've collaborated with over 10 Chinese hospitals, with our hydrogen generators proving particularly effective during the 2019 viral outbreak. Our team includes medical professors and we maintain strong R&D capabilities focused on negative hydrogen-ion medical devices.

We offer professional ODM/OEM services and are a leading anion environment solution provider. With a professional overseas sales team and German-based medical expertise, we're committed to advancing life-enhancing technologies.
