Product Description

Medical Energy Hydrogen Inhale Generator Portable Breathing Hydrogen Inhalation Machine

Portable Hydrogen Inhalation Machine Overview

The Weizi Medical Energy portable hydrogen inhale generator produces hydrogen from water through electrolysis. When inhaled, the hydrogen combines with oxygen free radicals in the body and reduces to water, providing potential health benefits.

## What are the benefits of inhaling Hydrogen

Hydrogen can quickly diffuse into any cell structure, through the blood-brain barrier,

Hydrogen can remove malignant free radicals and nitrite anions, thus enhance human immune function and improve prognosis.

Molecules of hydrogen enter the body and spread to the nose, lungs and brain

When hydrogen enters the body, it combines with malignant oxygen free radicals in the body and reduces to water

Expel the body in the form of water and the body's cells return to a state of equilibrium

Relieve Fatigue

Improve Immunity

Slowdown Aging

Help Sleep

Keep Beauty

Lessen Anxiety
