

S90 Portable Hydrogen Inhaler with 150ml/min H₂ and 75ml/min O₂ Output

Our Product Introduction

for more products please visit us on weizi-medical.com

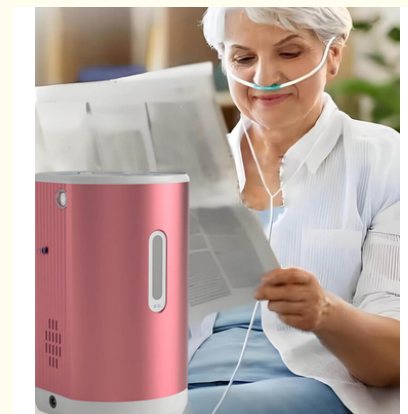

Basic Information

- Minimum Order Quantity: 1
- Price: \$160-186

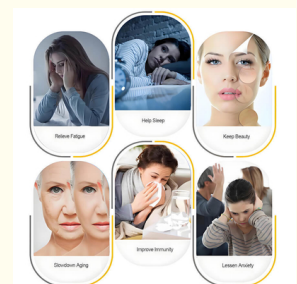

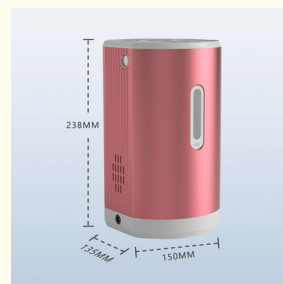

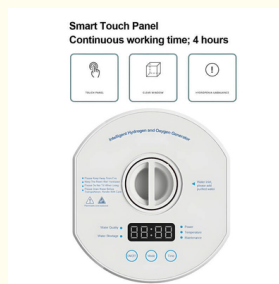

Product Specification

- Hydrogen Output: 150±10 MI/min
- Oxygen Output: 75±10 MI/min
- Total Gas Output: 225 MI/min
- Hydrogen Water Concentration: Up To 1400ppb
- Timer Settings: 1h, 2h, 3h
- Working Life: 8000-10000 Hours
- Power Consumption: 65-85W
- Input Voltage: AC100-240V, 50/60Hz
- Weight: 1.6kg (3.5lbs)
- Electrolysis Technology: SPE/PEM
- Gas Purity: 99.9%
- Maintenance Interval: Every 20 Hours
- Flow Rate Options: 100, 150, 225 MI/min
- Operation Modes: Inhalation/Water Generation

Product Description

S90 Portable Hydrogen Inhaler

This compact device makes it easier to access the benefits of hydrogen therapy wherever you go.

Key Features

- **High-Efficiency Hydrogen and Oxygen Production:** Generates up to 150ml/min of hydrogen gas and 75ml/min of oxygen gas, combining for a total output of 225ml per minute of Brown's Gas.
- **Cutting-Edge Technology:** Uses latest SPE/PEM electrolysis technology to produce 99.9% pure, safe hydrogen without harmful byproducts.
- **Dual Functionality:** Functions as both a hydrogen inhaler and hydrogen water generator.
- **User-Friendly Design:** Features three timing modes (1, 2, and 3 hours), quiet operation, and easy maintenance.
- **Portable Design:** Weighs just 3.5lbs (1.6kg) for convenient use at home, office, or while traveling.

Hydrogen Inhaler Suitable for Household and Traveling

The Power of Hydrogen Therapy

Hydrogen therapy is backed by over 1500 medical studies, highlighting its effectiveness in improving overall health, enhancing recovery, and supporting the body's natural healing processes.

The S90 portable hydrogen inhaler delivers hydrogen at the recommended flow rate, ensuring you receive the therapeutic benefits scientifically proven to make a difference.

Medical Research Applications

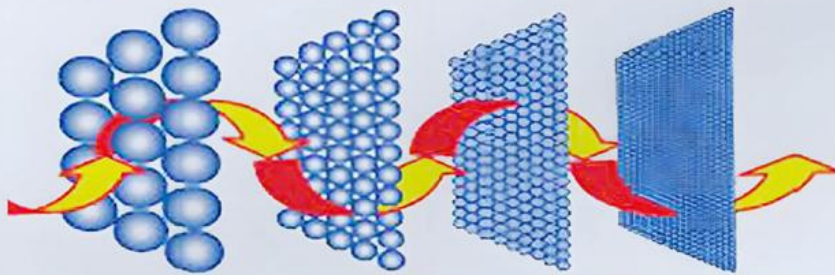

Hydrogen therapy has shown potential benefits for:

- H₂ and cancer
- Cardiovascular and metabolic diseases

- Brain cancer and skin cancer
- Asthma
- Acute and chronic diseases
- Infections
- Stroke and TBI
- Anti-ageing

Adopting high-end zero spacing electrolytic cell

Fast separation of air and water

GIVE MORE VITALITY

HYDROGEN AND OXYGEN MIXED

Hydrogen is a very small/lightweight molecule with permeability and diffusivity
Can spread to the whole body quickly and remove harmful free radicals in the body

Recommended Usage

With the S90 Mini Hydrogen Inhalation Machine, embracing the cutting-edge of health and wellness has never been easier or more convenient.

Experience the transformative power of hydrogen therapy and take a significant step towards a healthier, more vibrant life.

Healthy but want to optimize health and prevent: ½ hour per day

Chronic health problems: 1 to 4 hours per day

Lung problems, acute illness or chronic fatigue: 8-12 hours per day (preferably sleep with it on) until improvement, then reduce time

After 1-2 weeks of intensive use, most users notice positive development.

Smart Touch Panel

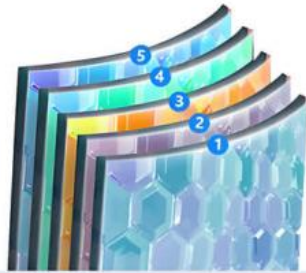

Continuous working time; 4 hours

Using aviation-graded Aluminum alloy materials

Super strong aerospace aluminum
alloy anodized material

TDS value detection

Overflow detection

Low water detection

Overheat detection

Unbalance detection

One machine can help:

Relieve Fatigue

Help Sleep

Keep Beauty

Slowdown Aging

Improve Immunity

Lessen Anxiety

Specifications

Technology: Latest generation SPE and PEM technology

Flow rates: 100, 150, and 225 ml/min (total flow rate)

Max Hydrogen (H₂) output: 150±10 ml/min

Max Oxygen (O₂) output: 75±10 ml/min

Hydrogen water production: Up to 1400ppb in minutes

Timer settings: 1 hour, 2 hour and 3 hour

Working life: 8000 to 10000 hours

Power: 65-85W

Voltage: AC100-240V, 50/60Hz

Maintenance: Simply replace distilled water every 20 hours of operation, rinse twice, refill

Applications

Applications

Safe and comfortable, suitable for all kinds of places

Home

Hotel

Gym

Travelling

Airport

High-speed railway station

Company Profile

Shenzhen Weizi Medical Co., Ltd is a high-tech enterprise focusing on the R&D, production, and sales of hydrogen-ion health products including hydrogen-ion inhalation machines, hydrogen-ion water machines, oxygen and hydrogen-ion tanks.

Our products have obtained CE, FCC, VOC, UKCA, CNAS and RoHS certificates. Since 2012, we have collaborated with more than 10 hospitals in China. During the 2019 pandemic, our hydrogen-ion generator machines demonstrated significant effectiveness.

Weizi possesses core patented technology and a team of medical professors, giving us strong R&D capability to continuously develop negative hydrogen-ions medical treatment devices.

We provide professional ODM/OEM project services and are an anion environment solution provider. With a professional overseas sales team and a shareholder doctor who has long-term experience working in Germany, our aim is to explore the source of life.
