

PEM Tech H2 Rich Hydrogen Water and Inhaler Hydrogen Electrical Generator

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Weizi
- Certification: CE, FDA, RoHS
- Model Number: YZ-C900F1
- Minimum Order Quantity: 1
- Price: \$650-900
- Delivery Time: 60 work days
- Payment Terms: T/T
- Supply Ability: 2 pieces permonths

Product Specification

- Dimensions: 205*440*368mm
- Housing Material: Stainless Steel
- Power: 220W
- Voltage: AC90-260V
- Type: Hot & Cold
- Installation: Desktop
- Hydrogen Gas Flow: 300-900 MI/min
- Timer Setting: 1, 2, 3, 4 Hours
- Hydrogen Water Concentration: 2000ppb
- Water Dispensing Volumes: 200ml, 350ml, 500ml
- Water Tank Requirement: Pure/distilled Water
- Drinking Water Temperature: Below 50°C
- Frequency: 50/60Hz
- Technology: PEM And RCM

Product Description

Molecular Hydrogen and Oxygen Inhalator 900ml Hydrogen Water Machine

2-in-1 Hydrogen Inhalation and Drinking Water Machine

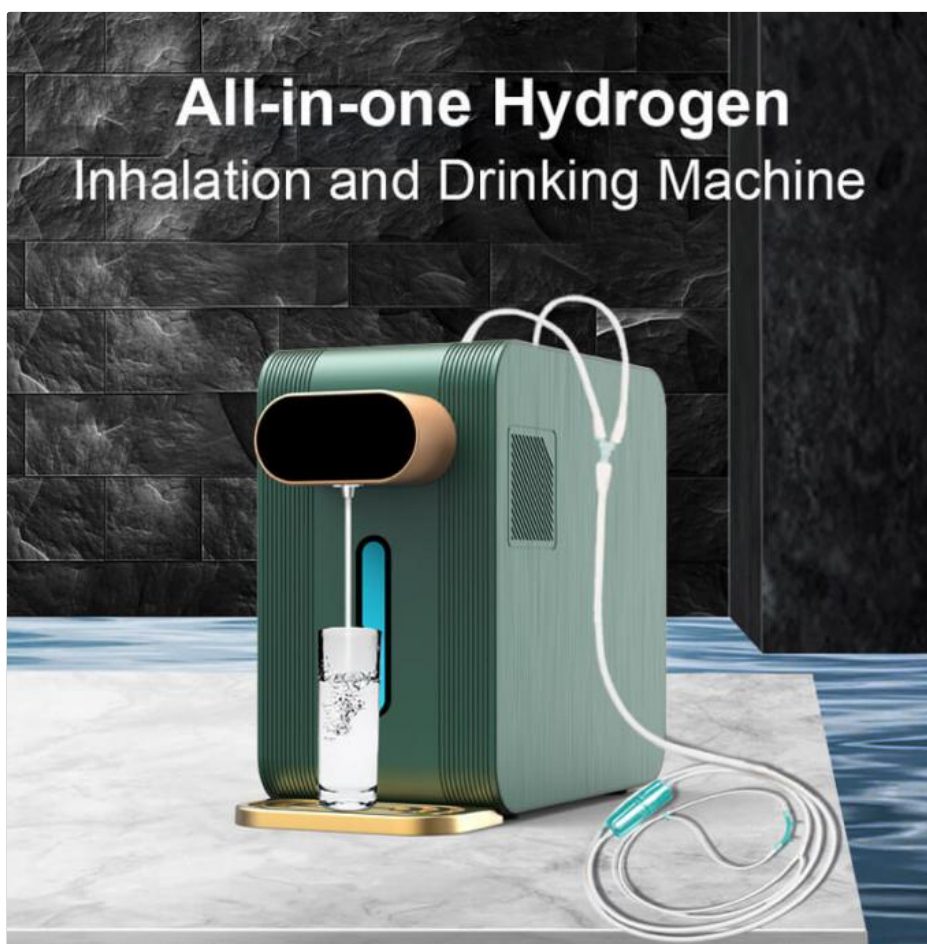

Hydrogen gas inhalation: Output flows: 300-900 ml/min

Hydrogen and Oxygen delivered separately with timer settings: 1, 2, 3, 4 hours

Hydrogen water production: Approximately 2000ppb with nano bubbles (milky appearance)

Water dispensing options: 200ml, 350ml, and 500ml

Water requirements: Pure/distilled water for tank; cool or below 50°C water for drinking

Hydrogen Gas vs Hydrogen Water

Breathing in hydrogen gas allows hydrogen to enter the body via the lungs, whereas hydrogen water is taken in through the digestive tract.

Research suggests that hydrogen inhalation offers a more effective means of transporting hydrogen to the circulatory system, enabling higher concentrations to be achieved within shorter time frames.

The combined use of hydrogen water ingestion and hydrogen inhalation provides the dual advantages of absorption through the digestive system and delivery via the lungs.

Hydrogen Inhalation

Hydrogen and oxygen separately, For two persons

99.992%
hydrogen purity

Single / double
suction

1-4 hours
Meet different
needs

Pure hydrogen/
hydroxide
Self Mastery

A variety of models, choose by heart

Compact, simple and stylish appearance
Intelligent operating system,
PEM hydrogen-oxygen separation technology

Pure hydrogen double suction mode
300ml/min \pm 5%
600ml/min \pm 5%

Hydrogen-oxygen hybrid double mode
450ml/min \pm 5%
900ml/min \pm 5%

What is Hydrogen Water?

Hydrogen water is purified water (H_2O) with additional molecular hydrogen (H_2) dissolved into it.

This powerful antioxidant neutralizes harmful free radicals, protecting cells from oxidative stress.

Potential health benefits include improved hydration, reduced inflammation, enhanced energy levels, immune system support, and chronic disease prevention.

Micro Hydrogen Bubble

Usage Guidelines

Hydrogen water is non-poisonous, safe for daily drinking, and offers better hydration compared to regular tap water. For optimal hydration, it is recommended to consume 2-3 liters or more of water per day. Initial advantages frequently encompass sharper mental focus, heightened energy levels, and improved detoxification.

Technical Specifications

Technology	SPE and PEM (latest generation)
Hydrogen gas flow rates	300, 450, 600, 900 ml/min
Timer settings	1, 2, 3, 4 hours
Hydrogen water concentration	2000ppb with nano bubbles
Dispensing options	200ml, 350ml, 500ml
Water requirements	Pure/distilled water (TDS <3ppm)
Power consumption	220W
Voltage	AC90-260V, 50/60Hz

Note: Always use high-quality distilled water with Total Dissolved Solids (TDS) of less than 3ppm.

Company Profile

Shenzhen Weizi Medical Co., Ltd is a high-tech enterprise specializing in hydrogen-ion health products, including inhalation machines, water machines, and oxygen-hydrogen tanks. Our products hold CE, FCC, VOC, UKCA, CNAS, and RoHS certifications. Since 2012, we've collaborated with over 10 Chinese hospitals. Our hydrogen-ion generators proved particularly effective during the 2019 pandemic. With core patented technology and a team including medical professors, we maintain strong R&D capabilities in negative hydrogen-ion medical devices.

We offer professional ODM/OEM services and serve as an anion environment solution provider. Our international sales team includes a shareholder doctor with extensive experience in Germany, reflecting our commitment to exploring the source of life through advanced hydrogen technology.
